Signal Services

WASHINGTON, May 19—Gen Albert J Myer, chief of signal service, in response to inquiry, has written a letter to Senator Sargent, in which he says

I have been doing all I can to secure this year such appropriation and such force as will permit California and the Pacific Coast and the interior plateau to be covered by operations of this service as they ought to be. We were able last year for the first time to establish stations along the whole Pacific Coast. Thus the importance to development of the science of weather predictions and their benefit not alone to California and Oregon but to the whole country can hardly be overestimated. I had also arranged to have river stations to forward reports of floods in the valleys last fall and everything was then ready but there was not money enough to occupy them and so the floods of the winter came unheralded. How much might have been saved can never be known. I hope this year we may be enabled to occupy them. The results may pay thousands of dollars for every one of cost. I am glad to have the opportunity to write to you and recall with pleasant memories your stalwart aid in the past

Sargent is sanguine of utilizing these statements to secure an increase by the senate of the appropriations for the support and extension of the signal service in case the amounts granted by the house shall be inadequate to cover the special field above indicated

Important Work of the Week

The coming week is expected to be an unusually busy one and prolific of legislative results in congress. The senate will probably dispose of pending bills on the subject of resumption of specie payments, and the contest in the senate over the Texas Pacific railroad measure may possibly be commenced within the next few days as Matthews has given notice of an intention to call it up next Tuesday. This, however cannot readily be accomplished unless the specie resumption bill is out of the way and will be further postponed if another of the regular annual appropriation bills is previously reported from the senate committee for action. The house with the aid of evening sessions, will doubtless dispose of the army appropriation bill before the close of the week, and the final struggle over the tariff bill will then be inaugurated, with the prospect of reaching a rapid conclusion through the instrumentality of a motion to strike out the enacting clause, which will probably be adopted

Rev H A Naylor pastor preached a short sermon before a large congregation. Mrs Chisholm was present. Bishop Haven pronounced the eulogy in course of which he said

We must defend the freedom of speech and free dom of the ballot or we perish from the earth. To this coming perfection of national peace and power this sad event will contribute. This family group are martyrs to American equality of right to the declaration of independence and to the preamble of the constitution

It was for the protection of every citizen at the polls for true Democracy the government of the majority of voters legally and fearlessly expressed for the American nation for the rights of mankind that this citizen of America with his brave son and braver daughter laid down their lives. Cotton Masters' Resolution.

LONDON May 18—The following is the text of the cotton masters' resolution at Manchester yesterday

This committee having carefully considered the proposal made by Alderman Pickop on behalf of operatives, resolve to arrange for mills being reopened immediately. Weavers, winders warpers sizers, loomers, etc, connected with the weaving department and spinners and card-room hands throughout the strike district, agree to work at a reduction of 10 per cent and this committee will be prepared to meet the operatives in three months or any other time in conformity with the usual mode of procedures.

The papers carefully point out that the operatives, not the masters, surrendered, and that the meaning of the resolution is that if operatives return to work at the reduction now they will receive better wages as soon as employers feel that their trade can afford it and not sooner.

Such measure will however require the sanction of parliament if in session; if not, immediately on its assembling. Suspension of socialist prints and associations may be effected by the local police but will be invalid if not confirmed by the federal council within four weeks. The prints may be seized by the police without previous judicial sanction. Imprisonment for not less than three months may be inflicted for contravention of the statute

THE MOVEMENT ON HAYES.

Republican Address

WASHINGTON May 18—The Republican congressional committee has issued the following address

To the Voters of the United States.—The Democratic house of representatives yesterday by a party vote adopted a resolution under which, under pretense of investigation, it is to lay the foundation for the expulsion of the president from office. This is the culmination of a plot which has been on foot from the day that Hayes and Wheeler were constitutionally declared elected. It made its first public appearance in the resolution of the last Democratic house declaring that Tilden and Hendricks were elected. Tilden and Hendricks subsequently made similar public declarations themselves. A few timid members have long held back and some of them after being coerced to a display of submission [illegible] that they will halt as soon as their part is [illegible] and one sided investigation shall be ended. In other words they intend after hearing suborned evidence to bring in a verdict that Hayes is a usurper and that he shall not remain in office. These men have the control in the Democratic party. They dared not even follow Alexander H Stephens in a united effort against a second election to the extent of showing some semblance of fair play. They will be impotent in the future as they have been in the past. Moreover it is difficult to believe in their sincerity in view of the public avowal of their party that its purpose is, if possible, to displace the president. It is a matter of history that the resolution just adopted was framed to express this object. The speaker of the house was consulted in advance as to whether he would rule that it was a privileged question. The party managers were anxious to conceal their purposes if possible. In this they were defeated by the speaker who would not rule it a question of privilege unless it clearly assailed the title of the president. The resolution being offered he read a carefully prepared opinion deciding it to be a question of the highest privilege because it involved the question of the validity of Hayes title. Here are his very words

A higher privilege than the one here involved and broadly and directly presented as to the rightful occupancy of the chief executive chair of the government and the connection of high government officials with the frauds alleged, the chair is unable to conceive. The chair finds enumerated among the questions of privilege set down in the manual the following election of the president. The chair therefore rules that the preamble and resolutions embrace questions of privilege of the highest character and recognizes the right of the gentleman from New York to offer the same.

Upon this the Republicans commenced the struggle against the revolutionary scheme which after five days duration terminated in the success of the conspirators. Republicans offered to favor the fullest investigation into all alleged frauds which either party charged to have been committed but the Democracy pursued its course shamelessly and relentlessly and stifled all inquiry into attempts at bribery in Oregon South Carolina and Louisiana and murder and violence in several states. Neither amendment nor debate was allowed. The inexorable previous question was applied and enforced. This scheme if pursued and if it is wilfully inaugurated can only have the effect of further paralyzing business of all kinds, preventing the restoration of confidence which seemed promising, casting gloom over every household and bringing our nation into reproach before the civilized world. The peace of the country is the first consideration of patriots. This new effort of the Democracy to inaugurate anarchy and Mexicanize the government by throwing doubts upon the legitimacy of the title of the president is in keeping with the record of that party, one wing of which rebelled against the government while the other wing gave them aid and comfort. We call therefore upon all who opposed the rebellion of 1861 without distinction of party to rally again to the support of law, order and stable government and to overwhelm with defeat the reckless agitators who to gain political power would add to the present distresses of the country by shaking the foundations of the government they failed in a four years war to destroy. By unanimous order of committee

Press Comments on the Potter Resolution.

NEW YORK May 18—The *Times* commenting on the action of the house yesterday says. This whole business of investigation is the work of a handful of men individually unimportant, but able to so use the machinery of caucus as to commit the party in spite of the better judgment of the majority of its members. The resolution does not express the mature result of a conference representing the party as a whole. It merely tells the purpose of a faction of which Tilden is the guiding spirit and its adoption by the party in congress indicates how abjectly members respond to the requirements of unscrupulous men who hold the caucus screw

The *Herald* says This great blunder of the Democrats Republicans are prompt to seize upon to their own advantage as will be seen by the Republican address which is issued. On the heels of the passage of the Democratic resolution against the cry of fraud they raise the cry of revolution and they will unite the whole north once more in their support

The *Tribune* regards the movement as revolutionary and says the Democratic resolution is not only indecent and knavish but it is an attempt to get up a new rebellion against lawful authority

The *World* regards the Republican address as unwise and wild and tends to excite the very clamor and confusion which those who misrepresent the action of the Democratic majority pretend to deprecate

The *Sun* has no editorial but prints a figurehead with the word Fraud on the forehead with the following title. The portrait as [illegible] by Charles F Adams of the man who yesterday saw a section of the Day of Judgment. A person who must forever carry upon his brow the stamp of fraud. The first triumph in American history. No subsequent action can wash away the letters of that record

Opinions of New England Governors.

BOSTON, May 18—New England governors have been interviewed for an expression of opinion upon the so called Potter resolution adopted by the house of representatives

Gov Rice of Massachusetts, believed the Democrats mistake the temper of the country. People generally have accepted the decision of the electoral commission as a finality. The purpose of present agitation seems either to impeach the president and oust him from office or procure material for the fall campaign. There is no danger of discovering anything to oust the president and the stability of the government shouldn't be trifled with for mere partisan purposes particularly at a time when there is so much communism active and latent and thousands of restless and dissatisfied persons are ready to enter upon a revolution or undertaking having the semblance of authoritative leadership

Gov Connor, of Maine expressed unqualified disapproval of the movement to unseat the president. The Republican party of the state while they may differ concerning certain features of the president's policy would no more think of disturbing his title than that of George Washington. The present action is revolutionary in the extreme and detrimental to the business interests of the country

Gov Fairbanks of Vermont declined to express any opinion

Gov Prescott of New Hampshire only said that his belief was that any movement to oust President Hayes would fail

The Clean Thing.

WASHINGTON, May 18—Adhering to last night's determination the Republican members of the house to-day refrained from offering any resolution to extend the field for investigation by Potter's committee, and Hunton and other prominent Democrats, who had intended to move its extension to Oregon and South Carolina in order to make a show of impartiality were persuaded by party friends to abandon their purpose at least for the present

Making Up the Nosing Committee.

Speaker Randall before leaving to-morrow for Pennsylvania will complete the selection of members of the Florida and Louisiana investigating committee and Mr Sayler will announce the names on Monday

The Independent Legislative Ticket.

The *Standard* expresses its approval of the independent ticket, and thus speaks of the nominations for the legislature

The candidate for state senator is J B Congle, an old Oregonian, and a man of much executive ability. During the many years he has lived in our midst his character has always been beyond the reach of slanders and by his upright dealings and generous manner has made many friends. He will make a strong fight against the cohorts of Mitchell

The representative ticket is made up of the following well known and popular men. W W Gay is an intelligent farmer. W B Doublehower is a carpenter by trade and a man of much practical power. A Roberts is one of our best citizens and well known as a member of the firm of Fishel & Roberts. Multnomah county will do itself much honor in sending him to the legislature. F S Keller is a candidate on the Workingmen's ticket as well as the one in question, and is one of our most substantial men and of character untarnished. We predict his election by a handsome majority. F M Edwards is a prosperous farmer, an upright man and a good speaker. He will take an important part in the legislature next fall. The next candidate is H B Nicholas one of the most lawyers in Portland and of unimpeachable integrity. He gives much weight to the ticket. A Miller is a well known property holder, and [illegible] with all the rest beyond the question of a doubt [illegible]

"Come out young man, there's a lot here" said an Alabama preacher in the midst of his sermon, to a youth whom he saw hesitating in the doorway

Glass and fragments of other materials from the mills in Minneapolis scattered by the explosion, fell in St Paul more than five miles away

THE EASTERN QUESTION.

England's Policy

LONDON May 18—The government will meet Lord Hartington's resolution in the house of commons on Monday that no force be raised or kept by the crown in time of peace within the kingdom without sanction of parliament with the following agreement

This house being of the opinion that the constitutional control of parliament over raising and employment of the military force of the crown is fully secured by provisions of law by the undoubted power of this house to grant or refuse supplies considers it unnecessary to affirm a resolution tending to weaken the hands of her majesty's government in the present state of foreign affairs

Notice by the colonial secretary in the house last evening that this amendment would be submitted was received with loud and prolonged cheering by the conservatives

A Liberal Election

The election of a member of parliament at Reading resulted in the choice of Geo Palmer liberal by an increased majority

Affairs at the Turkish Capital.

CONSTANTINOPLE May 18—Prince Labanoff Russian ambassador, visited the sultan and Sadyk Pasha president of the council to-day. On account of indisposition, Savfet Pasha minister of foreign affairs was absent

The Russian headquarters are still at San Stefano but the entire army has moved northward except a few companies

General Todleben has explained that the summons to the Turkish commander to surrender Prindjlksi was the result of a misunderstanding

Turks Alarmed

LONDON May 18—There is great excitement and alarm in Constantinople but the idea of a forcible attack on the city or occupation of the shores of the Bosporus is discredited from the fact that the Russian ambassador will have an interview with the Sultan, to present his credentials to-day and has an appointment to meet the British ambassador Tuesday. The rumor that the Russians have demanded the Porte to enforce the withdrawal of the British fleet and permit the Russians to occupy both sides of the Bosporus is the clear result of panic.

The *Times* says the war has already cost Russia about £100 000 000

Revolters Squelched.

BELGRADE, May 18—The Albanian revolt in old Servia has been suppressed

Thessalian Refugees

ATHENS May 18—There are 30 000 Thessalian refugees in Greece. They refuse to return to their homes. Many of them are joining the Greek army

From a remark made by Hale it is inferred he will to-morrow offer a resolution to extend the investigation to Oregon South Carolina Mississippi and other states

WASHINGTON May 18

The speaker appointed Sparks Singleton and Baker conferees on the Indian appropriation bill

The house then went into committee of the whole on the army appropriation bill

Hewitt, of New York who had charge of the bill in his statement said he regarded the crucial test of statesmanship to be a reduction of the burdens of taxation, so that the hand of labor might reap its reward and keep it when earned. That idea had been the pole star which the committee on appropriations had before it. The reduction of expenditures in 1877 had been $2 000 000. The pending bill effected a saving of $3 841 000 and that without touching the pay of the soldier or officer and without reducing the strength of the army by a single musket. A saving was effected in the administration on the test of population. The army contained now as compared with 1860 a surplus of 607 officers and of 7 .28 men. On the test of the army posts now and 186 53 of the present posts being useless there was a surplus in the strength of the army

Stephens asked to be put upon the record. He was absent on leave of the house yesterday when the vote was taken upon what is known as the Potter resolution and was paired with Harris. But for pair he would have voted against the resolution as it stood

Senate.

Cockrell said that on Monday next he would bring up a bill to place Brigadier General Shields on the retired list

Has Dennis a Letter from Noyes?

[Redfield to Cincinnati Commercial]

Mr Dennis has something in reserve that he seems to be holding back for the last charge. It is alleged that his most important document is a letter from Gen. Noyes, written during the excitement of the presidential count when it appeared that the whole case, French missions and all, depended upon the character of a few returns in the county where Dennis was operating. That Dennis has a letter from Noyes I am well satisfied, for the information comes straight. A prominent Republican has seen this letter, and shakes his head ominously when the subject is mentioned. He assumes to believe it is forged, doubting, as he does that Gen Noyes would put himself on paper in so uncertain a country as Florida in any shape that could in the remotest degree compromise himself or friends. Those who were with Noyes in Florida say that he uniformly denounced any attempt to count the state for Hayes by unfair means

Too Many Leaders.

[From the Chicago Times]

Ben Butler thinks that the national party is likely to grow rapidly in strength and he shows an inclination to put himself promptly at the head of it. The trouble with the new party seems to be however a superabundance of leaders. Nobody is willing to be the second man in it

The southern Methodist Church is gaining a large German constituency. They have about 10,000 German members belonging to two German conferences and to several English.

Kearney Convention.

SAN FRANCISCO April 18—At Charter Oak Hall last evening, the Kearneyites appointed Kearney as president of the executive committee, Wellock vice president, H M Moore secretary and Thomas Donnelly treasurer. Wellock was also appointed state lecturer and general organizer. Harry George appeared in the convention and urged his claims to the nomination as delegate to the state convention. He refused however to endorse Kearney or any party, which was not received in good part by the convention and no action was taken in the case. A committee on platform was appointed, also a committee on constitution. C J Botts and George Thomas of Alameda, and L J Morton of San Joaquin were nominated for the constitutional convention from the second congressional district and O L Chubb Isaac Bucknell D H Dryden B Pilkington and James J Breen for the fourth congressional district. An obligation pledging candidates to sustain the principles of the party and to resign when requested was adopted. Adjourned till 9 A M Saturday

The Kearney Convention.

SAN FRANCISCO May 18 The Kearney convention, on reassembling this afternoon, discussed the question of a party organ and finally decided to adopt the *Open Letter* as such organ. The following resolution was offered

Resolved By the delegates of the Workingmen's party of the state of California now assembled in convention that we recognize the Socialistic Workingmen's party of the United States as a kindred organization having for its purpose and end the emancipation of workingmen a unity of purpose and sameness of principle with us and we hereby declare our brotherhood's common object the Workingmen's welfare and the nation's prosperity

After considerable discussion the resolution was adopted with applause by a unanimous vote, after the scruples of one member regarding affiliation with outside organizations had been satisfied. The name of Judge Botts as a delegate to the constitutional convention from the second congressional district and that of J M Todd were submitted. It was resolved that the delegation from the third congressional district meet at Marysville, June 3d to nominate delegates to the state constitutional convention and the San Francisco delegation meet on Monday for the same purpose. The presidents of clubs throughout the state are requested to meet and organize their executive committees on or before May 20th. A number of delegates addressed the convention with relation to the action of the authorities and police on several occasions in breaking up workingmen's meetings, and explanatory of the motives of workingmen in organizing military companies which it was claimed was done with a view of protecting the city from violence apprehended from a vigilance committee alleged to be in existence. It was also announced that the tenth ward military company would hold a picnic to-morrow for the purpose of procuring money to buy arms and all were urged to attend. The committee to wait on Registrar Kaplan, to demand a recognition of the party in appointing election officers, reported that arrangements would be made to that effect. Kearney made a few closing remarks, the usual votes of thanks were passed and the convention adjourned sine die

The object of the meeting was a united and persistent resistance to payment to the railroad company of any rents, first purchase money or anything that would constitute an acknowledgement of their claims until final adjudication by the supreme court of the United States. The following resolution is by order of the Settlers' Grand League

Resolved That all men are hereby warned against purchasing any of these lands that are occupied by actual settlers as no man can peaceably occupy them or any portion of them to our exclusion until our case is finally adjudicated by the U S supreme court

Investigating Mr. Kearney

The county committee of the Workingmen's party met to-day to hear evidence taken by the sub committee appointed to investigate the charges preferred against Dennis Kearney. A voluminous mass of evidence was presented, the reading occupying two hours and a half. J G Day's testimony was to the effect that previous to the last municipal election he and Kearney were respectively president and vice president of what was known as Trades and Labor Unions Reform clubs. In that capacity they obtained money from a number of candidates for office, including Mayor Bryant and Sheriff N[illegible]. The committees report [illegible]. It was worded out of Day with great reluctance that the club was a piece club

The testimony of John Lin ban late president of the seventh ward workingmen's club, was to the effect that Kearney said he was not fighting Flood & O Brien because they did not employ Chinese but he thought he could get something from them to push the movement along.

Mr Gallagher who received some money from J J Green to give Day and Kearney corroborated J G Day's testimony

J J Green's testimony also corroborated Day's

Mrs F Swift well known on Pine street is a stock operator testified to seeing Kearney with Edward Curtis of the Central Pacific railroad on the 10th inst and that Kearney told her he had an appointment with Curtis

August F [illegible] testified to catching Kearney and Curtis in a close confab in the back room of a saloon

A A Stout testified to Kearney's associating with politicians

H F Lundy testified that some time ago Kearney said when asked about our anti coolie meeting, "To hell with your anti coolie meeting. We have something better on the carpet." He told Lundy "We own Bryant and Nunan"

W A Helm testified he could produce a man who was present in a saloon on Fourth street when Radstone Wellock and Kearney put up Bones' nomination. It was understood $3 000 was to be paid for the nomination also $10 000 would be paid by Flood & O Brien, provided they could affect the savings banks of the city

Kearney refused to recognize the committee or testify before it. Kearney and the presidents of ward clubs met to-day, discussed a plan of the campaign, and placed J D Connel on the state central committee

The Sand Lot Meetings

At the sand lots to-day the usual crowd of about 1 500 assembled, and were addressed by Kearney and some of the members of his convention from the city and country. In the course of his address Kearney said he had waited upon the clerk of J C Flood who informed him that Flood would probably consider favorably Kearney's request for a donation of $50 000 or $100 000 to be used in establishing workingmen's laundries in the city

The Defunct Bank.

Joe Davis manager of the defunct dime savings bank of Sacramento was arrested on California street this morning and sent to Sacramento

The Pleasures of Mediocrity.

[London Saturday Review.]

The Frenchman who said of the English girl's singing that it was "magnifique, splendide, sublime, pretty good" had no idea that the last part of the compliment was a pathos. Perhaps he was right though the opinion of the world has certainly gone against him. Perhaps a work of any sort of art which pretty good gives no less pleasure or more (and to give pleasure is, after all, its end) than any tremendous composition in the grand style. If you don't care for the grand style, or know what it is, then says a poet in the most devout way "*monemus in pectora testis.*" To follow the grand style only, to neglect what is "pretty good" is to miss the sweet April mornings, the indolent, easy pleasures of literature. "I think in my heart," said Thackeray before he was famous before he was the author of *Vanity Fair*, "I am fonder of pretty third rate pictures than of your great, thundering first rates. Confess how many times you have read Beranger, and how many Milton. If you go to the 'Star and Garter,' don't you grow sick of the vast luscious landscape, and long for the sight of a couple of cows, or a donkey, and a few yards of common?" One suspects people who do not enjoy the common nature and the art which is not uncommon of caring very little for either one or the other.

INDEPENDENT TICKET

To accomplish important objects which must be reached through the ballot box it is often necessary to go outside of strict party lines Almost every voter does this to a greater or less extent in every election Comparatively few vote who do not erase certain names on a general ticket and substitute others It is the elector's right A larger application of the principle is the agreement of a great body of citizens—when an important object is to be attained—upon a ticket for their united suffrages without regard to general party affiliations Against the effort to re-elect Mr Mitchell there is earnest protest by a great majority of the people of Oregon His course on very important questions is known to be detrimental to the public interests So universal is the popular disapproval that, except for the untiring efforts and intrigues of his corps of personal adherents backed by the official patronage he is supposed to control, nobody would suppose for one moment that he could even be a possible candidate His friends would never dream of putting him directly before the people for any office But all over the state there has been an effort to control the nominations for the legislature so as to defeat the intentions of the people The full extent of success in this direction is known of course only to the managers themselves but the people in several counties are justly apprehensive of danger, and are taking what precaution they can to make sure that their votes be not turned against their own wishes and purposes In Multnomah, the center of this effort to force Mr Mitchell's re election, a ticket has been presented whose principal test is fidelity to his interest It is a test which excludes a very large class of Republicans from participation in the action of their party on the local nominations So long as the action of the party is controlled in an interest which is so radically opposed to their views, they must protest, and they have courage to take a course that will make their protest effective It is useless to enumerate the reasons why Mr Mitchell cannot unite the Republican party of Oregon Nor would any one challenge public ridicule by pretending that the reasons are not sufficient So good are they no candidate for the legislature dares to avow that he would vote for him—and yet it is well known that candidates have been nominated expressly for the purpose which they dare not acknowledge Remonstrance has been vain Men who are making a trade of politics for the profits that accrue therefrom have chosen deliberately to exclude from present co operation with the party—wherever this question touches the action to be taken through the approaching election—a large class of Republicans and the lesson which is to correct this selfish faculty, a lesson which has recently been administered many times in many states, is now to be repeated in Oregon

On Saturday the Democratic convention of Multnomah expressed a willingness to co-operate with those Republicans who cannot approve the action taken by the managing politicians who have converted the Republican party of the county into a Mitchell organization, and who insist that fealty to themselves is the sole test of fidelity to Republican principles In making up a ticket the Democratic convention thought it inexpedient to present candidates exclusively of their own party, and so accepted about an equal number of Republicans, with a view to securing the widest possible co-operation among those who oppose the Mitchell organization. It is an independent ticket, made for no man or ring All the names are those of well known and first class citizens. Since Democrats have evinced a willingness to co-operate for the time and for a specific object with those Republicans who are forced to a revolt by a test which their views of the public interests and their own self-respect alike forbid them to accept, the proffer should be received as tendered, and full co-operation obtained. Democrats who participate in it do not become Republicans nor Republicans Democrats Both classes will support their respective state tickets as far as they would have done had not this movement been taken. The designation of certain Republicans by the Democratic convention on Saturday is simply an invitation to the large numbers of Republicans who do not accept the rule of the Mitchell party, to join in rebuking the insolent pretence that one man and his personal adherents have a right to coerce the sentiment of a community and perpetuate their system of personal politics.

The independent ticket very well represents the intelligence the business and stability of the county Everyone of its nominees is a permanent resident and has a well established business, which is more than can be said of many on the Mitchell ticket In every sense of the word they are independent citizens. No system of official patronage, no machine organization run for special or personal objects, controls, or will control, their action. They are not followers of political fortune They are not taking this action for what they can make out of it. In short, their motive is precisely opposite to that of the managers of the Mitchell organization They do not believe that Mr Mitchell has been a proper representative of the interests of Oregon, and they object to his re election. It is their right to emphasize their protest now and it is their duty to do so if they hope to make it effective." They know that if Mr Mitchell had pursued a course which would have aided a railroad, rather than a course that has obstructed it, the prospect for railway communication with the east within a very few years, would now be clear Furthermore, they hold that the true policy is to allow the country to select its own public servants rather than permit one who has been given position to push himself forward with all the resources of patronage and all the contrivances of intriguing activity, for re election. These are the views which have led to the formation and acceptance of an independent ticket It will be supported by all who object to the system against which it is a protest and to the conditions which, under that system it is proposed now to perpetuate A majority of the people of Multnomah are opposed to Mr Mitchell, disapprove his acts and think he ought not to be returned to the senate and now they have opportunity to signify their disapproval in a way that will mean something

AN INVENTOR'S CLAIMS

Edison, inventor of the phonograph in a paper contributed to the *North American Review*—the May June number—explains the principles on which the discovery works They are very much as heretofore described and need not be repeated here But there are many probable applications of the invention and still more possible ones, which it is interesting to note Among the former are letter writing and other forms of dictation books education reader music family record and such electrotype applications as books musical boxes toys clocks advertising and signaling apparatus speeches etc Business men may dispense with clerks and thus secure entire privacy for their correspondence books may be read and the record of such books used in asylums or sick chambers the phonograph will tell a child how to spell hard words a song sung on it may be reproduced with marvelous accuracy in power For the purpose of preserving the sayings the voices and the last words of the dying member of a family or of a great man the phonograph will outrank the photograph crying singing and talking dolls may be fitted out through it the phonograph clock will tell the hour of the day and late visitors home etc These are only a few of Edison's claims Should the half of them be fulfilled great things will be achieved

A PARTISAN PLAY

A great and unnecessary uproar is reported from Washington Much of it is play for partisan advantage Democrats have passed a resolution to investigate the Florida frauds and Republicans exclaim against the proceeding as if it were likely to result in expulsion of Hayes from the executive office There is need to keep cool about this matter and to exercise a little common sense Hayes and Wheeler were declared elected by a commission created by law expressly to decide the controversy and the decision will not be overturned Whatever noise and fury may arise, they will serve out their full terms Each party is trying to make capital The Democrats hope for 'revelations which will enable them to shriek louder than ever in the coming elections about 'the great fraud and the Republicans hope to effect an opposite movement and turn the whole thing to account in their own behalf by making the country believe that Hayes and Wheeler are to be ousted Agitation of the subject is utterly foolish The parties are on a hunt for 'issues, but the country is not in danger

---

Great regard and even wonderful veneration for 'the party is expressed by the managers of the Mitchell canvass It is an unserviceable plea because the motive of it is well understood High regard for the interests of party is not manifest in conduct which pushes an effort that deprives the party of the co operation of large numbers of its natural adherents From the start it has been manifest that the Republican party would be weakened should there be an effort to set up things for Mitchell's re election The interests of the party required that he should not be a candidate His prominence in the canvass is the only thing which renders complete success for the Republican party a thing of doubt A true regard for his party requires that whenever a person is an obstacle to harmony and success he should step out of the way, and not place his own desires and ambitions above the interests of the party for which he expresses so warm admiration

---

The comparative table showing the receipts of produce at Chicago for eight months of each year during the past eight years presents some very interesting and instructive figures. The total receipts of wheat for the eight months ending the 30th ult were 18 665 110 bushels, against 8 980 378 for the same period last year, being a gain of nearly 10 000 000 bushels. The total receipts of all grain for the eight months ending the 30th ult were 61,158,886, against 48 327 355 for 1877 the receipts for the present year also being the largest ever known at Chicago for the same length of time

---

Mr Brown state treasurer in his communication the other day, had something in relation to the mandamus from the supreme court which required him to redeem $40 000 of lock bonds The country would have been gratified to have Mr Brown state, while he was about it, why he did not pay over the money promptly when the mandamus is sued It has always been understood that he allowed interest to run on this large amount many months longer than necessary If THE OREGONIAN is in error on this point it would gladly be set right

---

Democrats at Washington propose to evolve new points of 'the great fraud, in order that they may have something to scream about and rouse the country withal and Republicans promptly take advantage of the opportunity by professing to believe that the new movement is designed to oust Hayes though they do not add thus far, that Jeff Davis is to be put in No large number of Democrats are fools enough to suppose that they can dispossess Hayes but they want to keep up the cry of fraud for political effect

---

A dispatch to the Chicago *Times* says Senator Thurman proposes to stop the Pacific railroads from cheating the government and to effect this he has introduced a bill to create a new office whose incumbent is to be called the auditor of Pacific railroad accounts This measure is understood to have been devised for the purpose of thwarting Jay Gould who had accepted the situation under the bill just passed and was rapidly adjusting himself and his plans to the changed circumstances

---

It is unnecessary for any admirer of Mr Mitchell to boast of the power which he has exerted during the several months over the railroad question as affecting our state It is acknowledged and he is being held to responsibility for it Any senator at the head of the railroad committee would have power over this subject and if he tried to beat our state out of a railway very probably would succeed

---

The first money coined in the United States was turned out in 1792 The machinery used as well as the material was imported from England Copper was scarce, but copper cents were the first specimens made, and two years later silver was coined, and the next gold eagles followed

"As United States senator," says the *Labor Gazette*, 'Mr Mitchell has proved more unacceptable than in all other things because it is evident that he has made a mistake and does not represent the interests of Oregon

A dispute is going on as to the magnitude of the state debt One thing is very certain namely that it is much bigger than the constitution authorizes and it has mostly grown up under the Grover administration

After all it turns out that the president had backbone enough to sign the Pacific railroad funding bill He did not dodge it and allow it to become a law without signature as first reported

TAKEN A PLEDGE —Sam Bernheim, who seems to be an unfortunate and hopeless inebriate, has 'sworn off, this time, he declares "for keeps Sam was arrested a few days ago and sentenced to the city jail for the period of ten days Saturday he was released on the solemn promise that he would not drink any more Before leaving the city jail, Sam signed a pledge and duly certified to it before a notary public Up to a late hour last night he had not tasted a drop of liquor It is to be hoped that all saloon keepers will refuse to let him have liquor under any circumstances With him the appetite for strong drink has become a disease and to give liquor to such a person is a very reprehensible act.

THE PICNIC —About 700 persons came down on the train Saturday morning from Albany and other points Unfortunately, the day proved very unpropitious for the picnickers The intention was to hold the picnic at the East Portland Park but the day was so very rainy and disagreeable that all were obliged to seek shelter in different portions of the city among friends and acquaintances Many of the excursionists came down with light coats and without umbrellas. They presented a forlorn and bedraggled appearance as they walked to and fro about the crowded streets. Had the weather proved pleasant the picnic would have been a grand success The train returned with the excursionists at 4 o'clock.

ACCIDENTALLY SHOT.—A correspondent writing from St Helens under date of the 18th sends the following D J Yeargain brings the painful intelligence that Judge Dennison from Portland, accidentally mistaking his brother (while out hunting,) for a deer discharged two shots at him before discovering his mistake—the last only taking effect, in the fleshy part of his thigh, inflicting a very painful but not fatal wound. The accident happened some 14 miles from here on the Nehalem trail All the necessary assistance, together with the doctor, have gone out to bring the unfortunate man in to this place

MOSES WANTS PEACE —Gen Howard has received a letter from Mr A J Cain of Dayton, W T which states that Sunday or Big Thunder head chief of the Palouse Indians, came to that town a few days ago and informed him that Chief Moses has no intention of commencing an outbreak, and that the reports to that effect have been gotten up by renegade Indians and unprincipled white men who associate with them Sunday desired that Mr Cain communicate with Gen. Howard

CITY.

ARRESTED FOR THEFT—Some time since Mr Wm. Cushman a well to do farmer residing in Linn county, 25 miles from Albany hired a man named A Gadway to work on his farm. Last Tuesday during the absence of Cushman, Gadway stole $600 in coin which he found at the house, and immediately lit out. Gadway first came down to Albany where he gambled away about $10. He then came down to Portland arriving here last Thursday. He staid all night at the American Exchange Hotel During his brief stay in the metropolis Gadway made quite a splurge managing to part with about $150 more of the stolen money. Friday morning Gadway took the boat bound for the Dalles Meantime Cushman notified the sheriff of Linn county of the theft and also Chief Besser The latter officer began to track the matter up and soon found where his man had gone He notified Sheriff of Wasco county and yesterday we had the satisfaction of seeing a dispatch from him to the effect that Gadway had been arrested at the Dalles. Only $20 were found on Gadway's person when he was arrested. Chief Besser has notified Sheriff Herren of Linn county that Gadway was arrested Herren will arrive here to day and will start up the river to-morrow

MOVING THE OLD CATHEDRAL—Divine services were held in the old cathedral last evening for the last time. This morning a number of workmen will commence to hoist the old structure so that rollers can be placed under it. The building, we understand will be cut in twain, and part of it will be turned around and attached to the rear end of the library building which stands just east of the cathedral. The other portion of the building will be removed to the block on which is located St. Michael's college, just south of St. Mary's academy. The library building will be fitted up temporarily and service will hereafter be held there Mr Partridge has the contract for removing the old church and work on the new cathedral will commence as soon as the present building is removed

THE GRISWOLD JURY.—Judge Deady concluded his lengthy charge to the jury in the United States district court in the case of U S vs. W. C. Griswold about 4 o clock last Friday afternoon. The jury is still out in consultation. Saturday forenoon the jury sent a message to Judge Deady, asking to be discharged, stating that there was no probability of the jurors agreeing on a verdict The judge declined to discharge the jury then stating that it was better to keep them out a while longer. The jury informed the court that they were then divided 8 to 3 (there being only 11 persons on the panel the parties consenting to try the case with that number). The jury will probably come into court this morning.

TAKES A PLEDGE.—Sam Bernheim, who seems to be an unfortunate and hopeless inebriate has "sworn off," this time, he declares "for good." Sam was arrested a few days ago and sentenced to the city jail for the period of ten days. Saturday he was released on his solemn promise that he would not drink any more. Before leaving the city jail, he signed a pledge and duly certified to it before a notary public. Up to a late hour last night he had not tasted a drop of liquor. It is to be hoped that all saloon keepers will refuse to let him have liquor under any circumstances. With him the appetite for strong drink has become a disease, and to give liquor to such a person is a very reprehensible act

THE PICNIC.—About 700 persons came down on the Saturday morning from Albany and other points. Unfortunately, the day was very unpropitious for the picnickers. The intention was to hold the picnic at the Oregon Park, but the day was so very disagreeable that all were obliged to seek shelter in different portions of the city with friends and acquaintances Many of the excursionists came down with light clothing without umbrellas. They presented a very bedraggled appearance as they walked about the crowded streets. The weather proved pleasant the picnic would have been a grand success The train left with the excursionists at 4 o'clock.

D J Yeargain has received intelligence that Judge ... from Portland, accidentally missed his gun (while out hunting) for a ... which was shot at him before discharging ... the last only taking ... fleshy part of his thigh, inflicting a painful but not fatal wound. NO WAR; PEACE.—Gen Howard has received a letter from Mr. A. J Cain of Dayton W.T., which states that Sunday, or Big ..., held a talk with the Palouse Indians, ... a few days ago and informed him that Chief Moses has no intention of commencing an outbreak and that the reports to that effect have been gotten up by ... Indians and unprincipled white men who associate with them. Sunday desires to ... communicate with Gen Howard.

A FAIR—A fair for the benefit of the First Evangelical Reformed Church in this city will be held in the room to be vacated by the ... establishment, in the Odd Fellows' temple, from the 8th of June to the ... The ladies belonging to that congregation are actively gathering costly and useful articles for the fair and promise rare inducements to all who wish to forward their interests.

RATIFICATION.—Next Thursday evening there will be a grand ratification meeting ... at the Oro Fino hall, to ratify the Republican legislative ticket nominated last ... Eminent speakers will address ... There will also be music, fire works. Everybody is invited.

BETHEL SERVICE.—Some very interesting Bethel services were held yesterday afternoon on board the *Alden Besse* ... They were conducted by Chaplain Stubbs.

SCARCITY OF ARRESTS—May thus far has been a very moral month More than one-half of the month has gone and only 56 arrests have been made by the police. How moral!

CODFISH OFF OUR COAST

Tillamook May 6 1878

To the Editor of the Oregonian

I have been requested to write for you what I know about codfish along this coast I am no fisherman but have taken some pains to learn whether there are codfish off the coast and I am satisfied that there is a bank or a region abounding in codfish about five to seven miles off the coast extending from the Columbia river bar south beyond Coos Bay and how much further I do not know

I was camped on the beach near the mouth of Salmon river a few years ago and the Siletz Indians went out in canoes from Siletz Bay one fine morning on the ebb tide and returned on the flood I sat on the bank and watched them for several hours I judged them to be about five miles out I was present when they came ashore with their canoes literally laden with fish and most of them codfish We bought a lot of the fish and salted and dried them in camp and found them to be by far the best dried codfish I have seen on the coast I have talked with a number of persons on the subject and all that pretend to know anything about it tell me the fish extend from the Columbia river south they don t know how far but about five miles from the coast they are abundant. The Indians take them with a hook made of turning wire with a bright piece of metal on the shank of the hook which attracts the fish and they use no other bait The usual method is for five to go in a canoe one to sit in the stern and keep the canoe right while the other four will load a large canoe at one tide The line used is about the size of an ordinary chalk line four hundred feet in length but they seldom have to pay out more than 300 feet I had hoped that the *Peto* would test that ground during the summer but it is reported she has gone into other waters I know the fish are there for I have seen them taken have cured and eaten the fish. So much I can vouch for—the Indian ' tradition " or statement I believe but do not know to be true J

DR. PAUL M. BRENAN.

His Wonderful Success
IN THE TREATMENT OF ALL
Chronic and Difficult Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language But where he has found them crushed and broken down by disease mentally and physically, he has restored them to health and happiness for it is well understood that without health there can be no happiness.

DR BRENAN

has made a specialty in the treatment of the following diseases Catarrh Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs, including Spermatorrhea Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines, or instruments to any part of the country with full instructions and advice Each letter requiring advice or list of questions, must contain two postage stamps

Everything strictly confidential and honorable

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland requiring medical treatment of the proper kind who desire to consult with me will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients Look out for them, they are knaves prompted by selfish motives and what they can make Be sure and ask for DR PAUL M BRENAN the *Medical Lecturer* and read his sign on his door

New York Branch of the Nevada Bank.

New York May 20 —The *Post* says the New York agency of the Nevada Bank of San Francisco opened this morning with an office at No 62 Wall street The New York agents are C T Christenson and Chas W Church The business of the agency will be exchange and it will furnish bills on all important points in the United States and Europe, Japan, China and the East Indies, Australian colonies and New Zealand, and on Honolulu. Special attention will also be given to transactions in bullion and specie and to California collections and securities. It is to be expected that through this agency New York mercantile and financial interests will have the benefit to a larger extent than heretofore of California capital

Theological Discussion.

Pittsburg May 20 —The presbytery and general assembly met this morning Dr Allison delivered an address in answer to Rev Dr Patterson of Philadelphia, who urged the presbytery to modify the Apostles Creed by striking out the clause that "Christ descended into hell " He answered the points in Dr. Patterson s address of Saturday, and urged the assembly to decline to change a portion of the creed which has stood without modification for 1,500 years

Dr Schenck, secretary of the board of publication made an earnest address on the work of that board He said the church must awaken to the necessity of counteracting the influence of the unscriptural literature with which the country is now flooded.

The Fenian Excitement.

Boston May 19 —A North Troy special says Along the Canadian frontier the Fenian excitement is raging The country bordering along the line of the 45th parallel is full of strangers, and appearances indicate that the rumors of an invasion are correct. Every few hours squads of ten or a dozen men are passing through this village toward Canada. Evidently some are tramps Several outrages by them are reported The red coats are on the alert and a warm reception will be tendered them in the event of an invasion.

Pacific Mail Management.

New York, May 20 —The Hart opposition in the Pacific Mail management propose to leave off Mr Clyde as president, and substitute the name of Capt. Babcock, of the Stonington line Among the list of former directors will be the names of Messrs. Thompson, Franklyn and Alexander. The contest for control of the company continues. The election takes place on the 20th inst.

Will Serve.

Chicago, May 20 —The *Journal's* Washington special says It is ascertained authoritatively that all the Republican members of the investigating committee will serve and not decline

WASHINGTON CITY.

The President Regards Affairs as Serious, but is not Afraid.

New York May 19 —The *Times'* Washington special says Gentlemen in the confidence of the president, and having perfect knowledge of Mr Hayes' views respecting the recent proceedings of the Democratic majority of the house, said this evening that the president while maintaining his natural equanimity of temper, was not inclined to look lightly on the situation. He did not think it was a matter to treat with indifference Great events in history had sprung from smaller beginnings. Tracing the movement from its birth, the president has been struck with its rapid growth He points to the significant circumstance that such independent and influential men as Alex. H. Stephens are already powerless to stay the caucus mandate. Whatever disclosures might result therefrom, the president entertained no fear that anything could be brought home to him If any person made any promises in his behalf, or entered into any bargain they did so without his knowledge, and he hoped their acts would be exposed. The president regards the action of the southern Democrats in supporting the investigation scheme as ungrateful in the highest degree, irrespective of other considerations. When he assumed the executive office he found the south, or at least a large portion of it, distracted and torn asunder by political strife, almost bordering on revolution. He gave the south peace. South Carolina and especially Louisiana were restored to the rule of the native population, and the carpetbagger ceased to be an element in southern politics. The president of course acted from a strict sense of public duty and claims no reward at the hands of the south for doing what he was bound in conscience to do, but he cannot avoid being a witness to the ingratitude evinced by representatives of the south to the man who, above all others has had their welfare and happiness in common with the rest of the union sincerely at heart. With reference to his title, the president conceded that it could be contested, but there was only one way to test the question, that was by a writ of *quo warranto* which was the only remedy provided by law when he became president. The act creating the electoral commission especially declared that nothing therein was to be construed as impairing or affecting any right then existing under the constitution and laws to question by proceeding in the judicial courts of the United States the right or title of himself and Mr Wheeler if any such right at that time existed. The president admitted that Mr Tilden's only remedy at present was by the writ of *quo warranto*, and such writ was a prerogative writ and not obtainable as a matter of right, but only in the discretion of the court and he doubted whether any court would grant it. The president also conceded the power of congress to pass a retroactive law to provide other means of testing the title to the presidency as the office can never be said to be in the past but always in the present. As to his impeachment being ordered by the house, the president has not the remotest idea that such occurrence is among the possibilities. The president is fully alive to exigencies that may arise and will see to it that public peace is maintained and the laws enforced at whatever cost. He proposed to follow the policy already marked out by his administration, and will take no backward step

Crooked Revenue Matters.

Washington May 20.—The following telegraphic summary of the investigation operations of revenue agents in Cincinnati has been received by the commissioner of internal revenue.

Cincinnati, May 19 1878.

To Green B Raum, Commissioner of Internal Revenue:—The result of examination convinces us that there has been no effective organization of the district. A portion of the force employed by the collector have been derelict in their duties. There has been no general or special canvass. Visits to tax payers and examination of books of manufacturers have been frequent We find ample opportunity afforded dishonest tax payers to defraud the revenue Many liquor dealers have neglected to destroy the stamps on empty packages, and returned the same to rectifiers and they have been refused. A large number of stamps for fermented liquors, removed from packages, have been found in possession of dealers. Empty beer kegs with stamps perfect have been found in wagons. Rectifiers in many cases have not made proper entries and have refilled packages. Several wholesale dealers have sent out spirits without stamps as required In many cases tobacco manufacturers have failed to make the required entries in their books Many cigar manufacturers have not complied with the law and there is evidence that some of them are defrauding the government Routine clerical duties of the collector s office seem to have been fairly conducted, and he has a number of faithful subordinates, but we believe the loose condition of affairs is attributable to want of organization and utter neglect and disregard of duty of a portion of the force

An Immigration Bill.

Washington May 20 —Senator Sargent introduced a bill to day to regulate immigra
